SUMMARY

Aspiring Web Developer specializing in the MERN stack, passionate about creating responsive and high-performance web applications. Eager to take on challenging projects and contribute to organizational success while continuously learning and staying updated with emerging technologies to deliver exceptional web development solutions.

EDUCATION

R C Patel Institute of Technology, Shirpur

CGPA - 7.54

Bachelor of Technology in Computer Engineering

Dec. 2021 - present

EXPERIENCE

Full Stack Developer Intern

Jan 2025 – Present

Numetry Technologies

Pune, India

- Engineered and deployed dynamic web applications using the MERN stack, elevating functionality and improving user experience metrics by 30%.
- Optimized RESTful APIs to ensure seamless communication and integrated responsive React components, enhancing performance by reducing latency.
- Designed and maintained responsive user interfaces in React.js and managed MongoDB databases, streamlining data processes and cutting query execution time by 20%.

PROJECTS

Doctor's AppointmentApp | React, Tailwind CSS, Nodejs, express, mongodb

Aug 2024 – Sept 2024

- Developed a robust Doctor Appointment application using the MERN stack, with a responsive interface styled with Tailwind CSS.
- Designed distinct modules for Doctors, Admins, and Patients, enabling profile management, appointment scheduling, and efficient system administration.
- Revolutionized appointment workflows by designing an intuitive platform that simplifies booking and ensures data security for doctors, admins, and patients.

E-commerce website | React, Tailwind CSS, Nodejs, express, mongoDB

March 2024 – April 2024

- Spearheaded the development of a full-stack e-commerce platform, utilizing MERN stack technologies to deliver a responsive and intuitive shopping experience.
- Developed key features, including user authentication, product catalog management, order tracking, and a secure shopping cart.
- Optimized the platform for scalability and performance, ensuring fast load times and smooth functionality across
 devices.

Resume Builder website | React, Tailwind CSS, ReduxToolKit

May 2024 – June 2024

- Built a dynamic Resume Builder application that enables users to select templates, input personal details, and generate professional resumes with real-time template rendering and data binding features.
- Utilized Redux Toolkit for efficient state management, ensuring seamless data flow and a smooth user experience
 across the application.

TECHNICAL SKILLS

Languages: C, Java, JavaScript, DSA

Frontend: JavaScript, HTML, CSS, Bootstrap, Tailwind CSS, Reactjs

Backend: Nodejs, Expressjs

Database: SQL, MySQL, MariaDB, MongoDB

Tools: Git, GitHub, VS Code, Postman, Render, Netlify, Vercel

CERTIFICATES

MERN Stack certificate from AlmaBetter

Java full stack certificate from WiproTalentNext

Java full stack certificate from R3SYS
